COME CELEBRATE ISRAEL AT THE NYC 5K RUN/WALK

BEFORE THE CELEBRATE ISRAEL PARADE HELP ERADICATE BREAST & OVARIAN CANCER

WE ALL KNOW SOMEONE WITH BREAST OR OVARIAN CANCER

MOTHER. WIFE. SISTER. DAUGHTER. FRIEND. SURVIVOR

FACT: Join the only Jewish Walk/Run in the world to benefit a BRCA Multidisciplinary Clinic that serves women and men at high risk of breast and ovarian cancer at Israel's Rabin Medical Center's Davidoff Cancer Center.

FACT: Rabin Medical Center partners with Memorial Sloan Kettering and Dana Farber to eradicate cancer.

FACT: 1 in 7 Jewish women will be diagnosed with breast cancer. Over 22,000 women will develop ovarian cancer annually in the USA. These forms of cancer are more prevalent among Jewish women in the USA and Israel.

FACT: 10% of breast cancer patients carry a mutation in the BRCA genes, facing an 80% chance of developing breast or ovarian cancer.

FACT: 2% of the Israeli population carries the mutated gene, (higher than other ethnic groups). Israeli women with a family history of multiple malignancies, especially breast and ovarian cancer, are routinely offered the BRCA gene test at Rabin Medical Center.

FACT: Proceeds from this event benefit the BRCA Multidisciplinary Clinic at Israel's Rabin Medical Center, a unique early management, life-saving clinic. Women will be spared by early detection screening and follow-up for breast and ovarian cancer.

FACT: The Davidoff Cancer Center at Rabin includes six units and clinics and seven departments to provide treatment for various types of cancer and will be expanded to twice its present size by 2017.

RABIN MEDICAL CENTER ONCOLOGY ANNUAL STATISTICS

71,785 Outpatient Visits

50,175 Radiation Therapy Treatments

37,502 Chemotherapy Treatments

10,124 Integrative Medicine Unit

Looking for the fastest member of the NYC Jewish community.
